

Pilot — Proposal & Agreement

Website Redesign — Proposal & Agreement

Prepared for: Pilot Restaurant, 1 Wakefield Gardens, Ainslie ACT **Prepared by:** [Your name] · [phone] · [email] · ABN [your ABN] **Date:** 8 June 2026 **Quote valid for:** 30 days

1. Overview

Pilot's food and room are first-class. The current website does not yet match them. This is a complete redesign: a dark, photo-led site that keeps Pilot's voice while loading fast, reading clearly on a phone, and making it effortless to book, browse the menu, and explore the cellar list.

A working concept has already been built and is live here:

<https://sb98s58978-del.github.io/pilot-redesign/>

This proposal covers finishing that concept into a production site on Pilot's own domain. An optional extension gives That Other Place its own dedicated page in the new design; today it sits as a single basic page on Pilot's site.

2. Why it's worth it

A website is not decoration. For a venue like Pilot it is the first thing most guests see before they commit to a \$160-a-head dinner. A faster, clearer site:

- **Captures bookings you are currently losing** — most diners arrive on a phone, on the move; a slow or clunky site loses them to the next result.

- **Gets you found** — proper titles, descriptions, a linked Google profile, and quick load times help you rank for the terms people actually search, reaching diners who do not already know you.
- **Sets the right expectation** — a two-hatted room deserves a site that signals the same quality before anyone walks in, which helps justify the price.
- **Cuts admin** — clear hours, menus, dietary, and booking information up front means fewer calls and emails for your team.
- **Surfaces extra revenue** — gift vouchers, arrival gestures, and private-event enquiries that a plain site keeps hidden. Vouchers are cash up front.
- **Is yours to own** — a site and analytics you control, not just a feed.

If the site brings in even one extra two-person booking a week, that is roughly \$160 x 2 x 50 weeks, around \$16,000 a year. A small lift in bookings or voucher sales more than covers the build.

3. What's included

- **Custom redesign — 5 pages:** Home, Menu & Information, Drinks, Gifts & Vouchers, Reservations
- **Reservation flow:** integration of Pilot's existing booking system (OpenTable / Now Book It / equivalent)
- **Menu & drinks build:** food menu, full drinks list, downloadable cellar list, all booking and dietary information
- **Mobile-first responsive design** across phone, tablet and desktop
- **Brand-consistent styling:** typography, colour, and tone matched to Pilot
- **Basic on-page SEO:** page titles, meta descriptions, image alt text, Google Business Profile link
- **Analytics setup** so you can see traffic and bookings
- **Launch:** connecting the new site to pilotrestaurant.com
- **One round of revisions** before launch and a second round within two weeks after
- **Handover:** a short guide (written + video) on editing your own content

4. What's not included (available separately)

- Professional photography (quoted on request, or supply your own)
 - Copywriting beyond existing content
 - Hosting and ongoing care (see Section 8)
 - Logo or full brand identity redesign
 - E-commerce / online ordering
-

5. Investment

Pilot website — founder rate

Everything in Section 3: 5-page custom redesign, reservation integration, menu and drinks build, mobile, on-page SEO, analytics, launch, and two revision rounds.

	Price (AUD)
Pilot, standalone	\$1,200
<i>Standard rate for this scope</i>	<i>\$1,950</i>

Offered at a reduced founder rate while I build my Canberra portfolio.

Optional extension — That Other Place

That Other Place currently has only a basic page on Pilot's site (pilotrestaurant.com/that-other-place). I can give it a proper dedicated page in the new design — story, drinks, its own menu, hours, and booking — in the same style.

Option	Price (AUD)
That Other Place dedicated page (added to Pilot)	+ \$300
Bundle — Pilot + That Other Place	\$1,500

Sole trader, not registered for GST — no GST applies. Prices in AUD.

Payment: 50% deposit to begin, 50% balance on launch (of the chosen total).

6. Timeline

Stage	Time
Deposit + content handover	Day 0
First build on staging	~1 week
Your review + revisions	2–3 days
Launch	within ~2 weeks of deposit

Timeline assumes content (photos, final menus, booking details) is provided within the first few days.

7. Terms

- **Deposit** is non-refundable once work begins and is deducted from the total.
 - **Revisions:** two rounds included. Additional changes billed at \$60/hour.
 - **Content:** the client provides photos, menus, and copy. Work pauses if content is outstanding.
 - **Domain & accounts:** the client retains ownership of and access to their domain, hosting, and all accounts at all times. The designer guides setup but does not take ownership of client logins.
 - **Ownership:** on final payment, the client owns the finished website and its content. The designer may show the work in their portfolio.
 - **Platform & hosting:** chosen at kickoff from the two options in Section 8 — managed on Cloudflare, or self-managed on Webflow.
-

8. Hosting & ongoing care — choose one

How the site is hosted and kept up to date is your call. Two paths, both include the reservation embed, SEO and analytics:

Option A — Managed (recommended) Built as a fast, fully custom site hosted on Cloudflare Pages. You never touch code; I handle changes. - Hosting: effectively \$0/month - Care plan:

\$60/month — menu and content updates, backups, small changes, priority support. Cancel anytime. - Best if you would rather hand changes to me and keep the exact custom design.

Option B — Self-managed (Webflow) Rebuilt in Webflow with an editor so your team updates menus and text in-house. - Webflow site plan: **~\$30–55/month**, paid by you directly to Webflow - No care plan needed; one handover training session included - Best if you want to edit the site yourselves without involving me.

Confirmed at kickoff.

9. Acceptance

By signing below, the client accepts this proposal and agrees to the terms above.

Client name: _____

Signature: _____ **Date:**

To begin: reply to accept, and the 50% deposit invoice will be sent. Work starts on payment.
